

Dear Sir:

I write to protest the airing of the anti-Kerry film in prime time on the eve of the election. If this film is critical, let it be placed on private airways where people who choose to watch it may do so; it does not belong on public airwaves.

This is an attempt to undermine the voting power of the American people. I am speaking out against Sinclair Broadcasting, who refused to allow Nightline to read the names of those killed in Iraq as being political....what, then, is this?

Thank you very much,

Dr. Darla Wilshire
